

**STATEMENT OF WORK**  
**Contour Farming (330)**  
**North Carolina**

**These deliverables apply to this individual practice. For other planned practice deliverables, refer to those specific Statements of Work.**

---

**DESIGN****Deliverables**

1. Design documents that comply with the purpose of the practice selected by the decision-maker and the applicable criteria in the NRCS practice standard and are compatible with other planned and applied practices.
  - a. Practice purpose(s) as identified in the conservation plan.
  - b. List of required permits to be obtained by the client.
  - c. List all required and/or facilitating practices.
  - d. Practice standard criteria-related computations and analyses to develop plans and specifications including but not limited to:
    - i. Minimum/maximum row grade.
    - ii. Critical slope length.
    - iii. Erosion SCI and STIR calculations.
    - iv. Minimum ridge height.
    - v. Outlet stability.
2. Written plans and specifications including sketches and drawings shall be provided to the client that adequately describes the requirements to apply the practice and obtain necessary permits. Plans and specifications shall be developed in accordance with the conservation practice standard Contour Farming (Code 330).
3. Operation and maintenance plan
4. Certification that the design meets practice standard criteria and comply with applicable laws and regulations
5. Design modifications during application as required

---

**INSTALLATION****Deliverables**

1. Pre-application conference with client.
2. Verification that client has obtained required permits.
3. Application guidance as needed.
4. Facilitate and implement required design modifications with client and original designer.
5. Advise client/NRCS on compliance issues with all federal, state, tribal, and local laws, regulations and NRCS policies during installation.
6. Certification that the application process and materials meets design and permit requirements.

---

**CHECK OUT****Deliverables**

1. Records of application:
  - a. Actual row grade slope length and ridge height applied.
  - b. Extent of practice units applied.
2. Certification that the application meets NRCS standards and specifications and is in compliance with permits
3. Progress reporting
